Congratulations to the Class of 1982 — You've spent many years preparing yourselves for life. Now, you exit into one of the most trying times in the history of our great country. Recall some of those efforts which required planning, extensive use of your thought processes and raised beads of perspiration on your brow. This formula and a touch of common sense should guide each of you through these troubled times. You all possess untapped potential. Use it and no one will have to wish you good luck for you won't need it.

Again — Congratulations for a job well done

ACTIVITIES

ECHO Staff

Kept Very Busy

I would like to thank everyone who worked on the yearbook this year

This was a crazy year for our staff. Yearbook started the year as an after school activity then was transferred into the journalism class. We had a great staff this year and we all took the changes in stride

I'd also like to thank our advisor, Mrs. Price for all her hard work, Hick's Studios, and Ken Drake. I would like to give a personal thanks to Mrs. Chrisinske for having faith in me for the past three years

Thanks again to everyone who helped make this yearbook great

National Honor Society

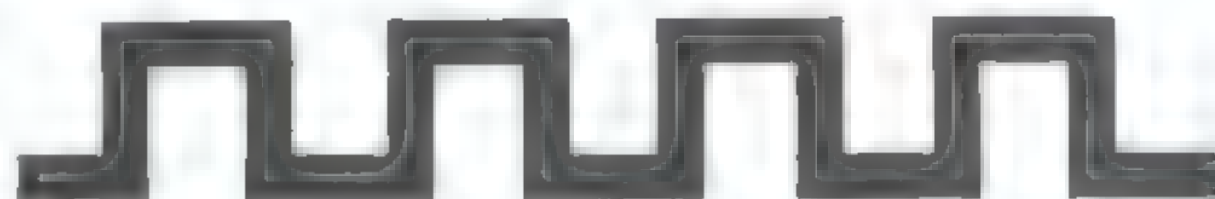

The National Honor Society is a national organization, conceived and constructed by the National Association of Secondary-School Principals in 1921. In their thoughts was the ideal of an organization that would work to improve national standards in academics and honor and encourage those students who strive to do the same on a personal level. Today

"No honor or responsibility conferred by the school excels that represented by the National Honor Society. It represents the fundamental objectives for which schools are instituted and gives recognition to the disposal of the school are only partial in the sense that they recognize specialized ability, skill, or talent, but this society looks upon education as a total product measured by the four dimensions of life."

These four dimensions or principles are the basis of induction and membership in the N H S. They are Character, Scholarship, Leadership, and Service. The virtues are all represented on the N H S. emblem. Along with them is a flaming torch in which all the purposes of the four principles are symbolized.

It has been said that the keystone emblem in actuality, is the keystone of life.

Byron Class Of '83 Presents . . .

Through The Eyes Of Love

When The Going Gets Tough . . .

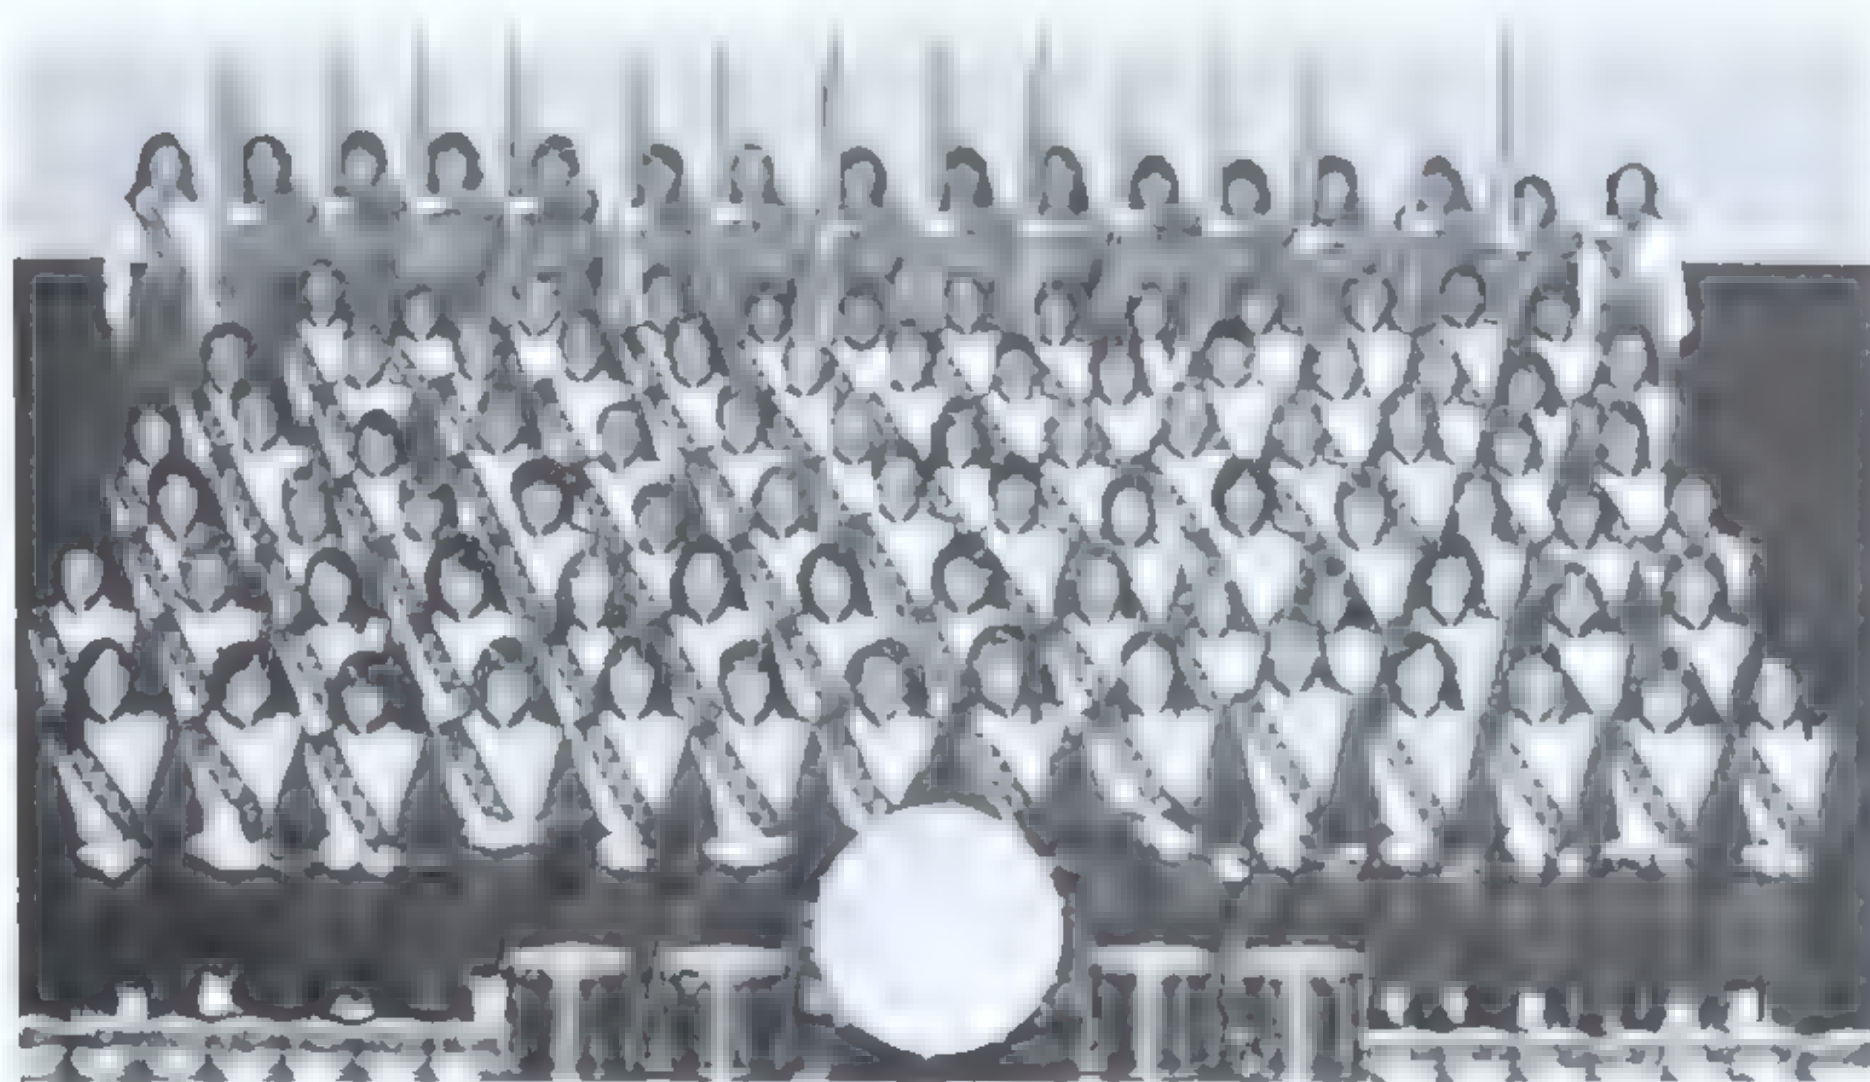

Though times were hard and the pressure was on, the Byron Eagles Marching Band kept pushing. Because of the school's money situation the band wasn't guaranteed that there would be a marching season or even concerts to practice for.

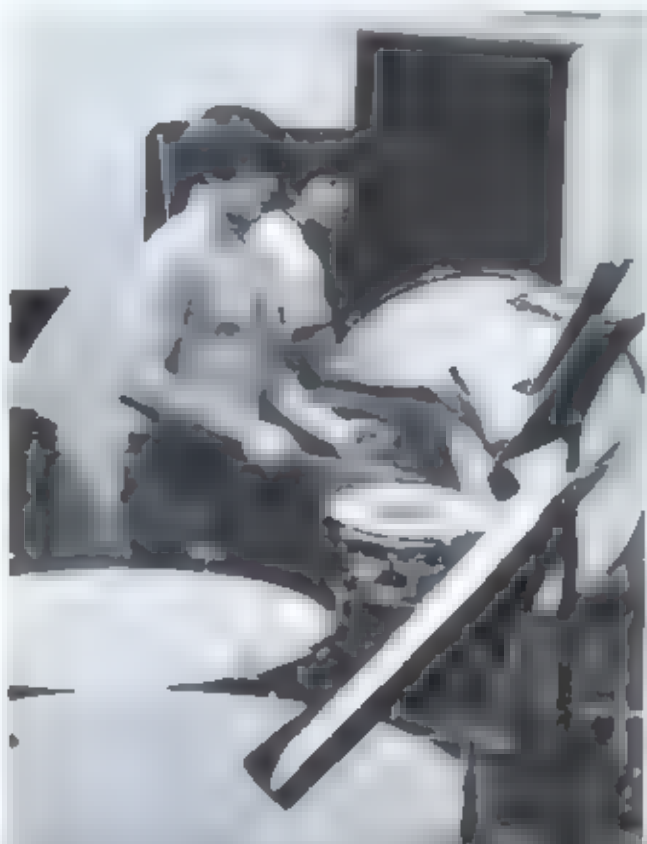

Their determination and devotion, along with some help from the Band Boosters, provided another successful year. They managed to provide halftime shows at all but one of the football games, performed four successful concerts, and received a two at the district festival. What a show of courage and stamina!!!

It was the best of times, it was the worst of times, it was the age of wisdom it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us.

From *A Tale of Two Cities*
by Charles Dickens.
